

PHYSIOSUITE™

Build your own monitor for mice and rats from 5g up to 1000g

Select and combine modules

■ **MouseSTAT™**

Pulse oximeter & Heart Rate Monitor
Clinically validated, stand-alone system, heart rate, SpO2, respiratory rate.

■ **RightTemp™**

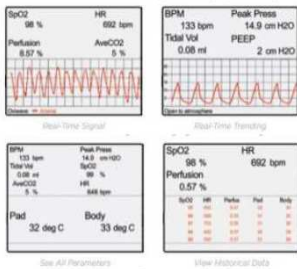

Homeothermic warming system
Homeothermic controller, 2 warming pads
2 temperatures sensors

■ **MouseVent™**

Automatic ventilator
Control ventilation by pressure or volume
Neonatal mice to 500g rats

■ **CapnoScan™**

End-tidal CO2 monitor
Real-time capnography ETCO2

Paw Sensors
