

BioPERF

Infusion table

With the Infusion Table designed by TEMSEGA, you can perform infusions, organ harvesting, and dissections on rodents and primates in complete safety.

Protection

Its suction work surface recycles air and allows you to choose your suction mode (active or passive). An indicator light shows you the fill level of your formaldehyde container.

Ergonomics

With its central control and display panel, as well as its integrated collection bin, this workstation has been optimized to save you space.

Efficiency

Designed to meet all your needs, the TEMSEGA Infusion Table has been designed with a flexible shower head and storage cabinet. It is also equipped with a real-time vacuum indicator.

TEMSEGA : your designer-manufacturer for all-in-one animal anesthesia solutions.

Since 1992, TEM SEGA is the leading manufacturer in Europe of gaseous anesthesia devices for veterinarian purpose. Our device can be customized to fit many species from mice to horses, and drive all types of labs gas (air, oxygen, CO₂, Nitrogen and toxic gas). Our values are to offer the highest human and animal protection, improve productivity and precision in research labs, propose modularity and flexibility, and comply with ethic guidelines. Our technical team install, train and support everywhere in the world.

*Our equipment are complying with European and US regulation, AAALAC recommendations.

Overview

Technical specifications

FEATURES

Equipped with a formaldehyde-grade activated carbon filter
Active or passive extraction via connection to the building
Folding shelves
Disposal
Lighting rail
Transparent protective hood
Fixed feet or casters

DIMENSIONS

Width: 120 cm
Depth: 70 cm
Height: 90 cm

Complies with European and American directives (AVMA)
